

IASC DISTRICT Challenge 2008/2009

Community Service is important in our society. Many people would not know the meaning, usefulness, or importance of charity without community service. Serving in your community addresses many grassroots problems that fall through the cracks of government and social agencies. Community service is a very important factor when it comes to bettering our society.

The IASC invites all districts to a statewide challenge by being creative in District-sponsored community service ideas for the year. The final sharing of District projects will be sent electronically via e-mail with pictures and the form below.

At the State Convention a presentation showing the hard work and creative ideas will be shown during a general session.

Your district is encouraged to participate in this networking project. If your district plans to participate in a district wide service project, please e-mail Chad Webster at webster.chad@gmail.com by April 1, 2009 with your 1. District 2. Project and 3. Goal. Upon completion of the project, please submit the completed form below (along with electronic evidence) to Chad Webster. Projects must be submitted by May 1, 2009.

District Challenge Form

District _____

Project _____

Goal _____

How your project and goal were accomplished (use a separate paper for more space)

Outcome _____
